

TECHNOLOGY • SECURITY SOLUTIONS

Cannon Elementary School
Grapevine, TX

PROJECT DESCRIPTION

GCISD's new Cannon Elementary School is designed for STEM and project-based learning. Within the campus, everything moves, creating an environment that is interactive, technology-driven and fun for young learners. Each learning pod space focuses on interaction, collaboration and exploration to support both small group classrooms and large group instruction. An outdoor amphitheater turns into a community classroom.

LOW VOLTAGE DESIGN SCOPE

- Network Infrastructure
- Paging/Intercom System
- Access Control System
- Video Surveillance
- Audio/Visual Systems
