

TECHNOLOGY • SECURITY SOLUTIONS

James Patterson Elementary School
Richmond, TX

PROJECT DESCRIPTION

Fort Bend ISD's new elementary school in Grand Vista is built around FBISD's 21st-century learning concepts to encourage collaboration and inspire learning. Within the campus, many things move, creating an environment that is interactive, technology-driven and fun for young learners. Each learning space focuses on interaction, collaboration and exploration to support both small group classrooms and large group instruction.

LOW VOLTAGE DESIGN SCOPE

- Network Infrastructure
- Paging/Intercom System
- Access Control System
- Video Surveillance

SIZE

120,000 sf
