

TECHNOLOGY • SECURITY SOLUTIONS

Santa Rita Middle School
Liberty Hill, TX

PROJECT DESCRIPTION

The new Santa Rita Middle School will be similar in design to Santa Rita Elementary School, only larger. It will feature a two-story classroom area, a competition gym, as well as an outdoor track. There will be more spaces for students to learn that focus on career and technology. The building features a state of the art fiber based data network that offers flexibility and expansion.

LOW VOLTAGE DESIGN SCOPE

- Network Infrastructure
- Fiber based GPON Network
- Centralized Power Distribution
- Video Surveillance & Access Control
- Classroom Audio/Visual Systems
- Paging and Master Clock
