Stephenville High School
Stephenville, TX

PROJECT DESCRIPTION

In 2018, the voters approved funds to expand and modernize Stephenville High School. The renovated campus features a welcoming entryway that leads to an open student commons area. New additions include a competition gym and locker rooms, a softball complex, an agricultural science center, and an auditorium. Campus safety is greatly improved with the addition of a secure vestibule, upgraded access control, and a new closed corridor connecting the main building to the renovated vocational building

LOW VOLTAGE DESIGN SCOPE

- Audio/Visual Systems
- Video Surveillance
- Access Control System
- Intrusion Detection
