

Family Safety Center
Tulsa, Oklahoma

PROJECT DESCRIPTION

The Family Safety Center (FSC) is in the process of building an advanced, state-of-the-art facility. With a mission to advocate for safety and justice in Tulsa County, FSC aims to provide co-located multi-disciplinary services that protect, inspire hope, and promote healing for victims of interpersonal and family violence. This new facility will expand FSC's capacity to serve up to 30,000 clients and will be located adjacent to the new Tulsa Child Advocacy Network (CAN) facility. This will provide access to additional resources for their clients.

CRUX recognizes the pivotal role of these systems fostering a safe and supportive environment. Our team dedicated ample time and expertise to accommodate the unique technology requirements of each agency within this facility. This entailed a deep proficiency in low-voltage technology and exceptional attention to detail, ensuring a comprehensive understanding of the facility's complex needs. CRUX is privileged to contribute to the creation of this vital facility, serving those in need of protection, hope, and healing.
