San Angelo ISD District-Wide Security Upgrades
San Angelo, TX

PROJECT DESCRIPTION

At San Angelo ISD, the safety of students, staff and visitors is a top priority.

San Angelo ISD engaged CRUX to assess all of the districts campuses to determine what changes were required to improve the physical safety of students, staff, and visitors.

Once the assessments were completed, CRUX designed video surveillance and access control system upgrades for all campuses and provided program management services to assist the school district through the bid, installation, and commissioning phases.

CRUX PROJECT SCOPE

- Access Control System Design
- Video Surveillance Design
- Security Intercom
- Master Planning Services
- Program and Project Management Services

SIZE: District-Wide

CONSTRUCTION COST: \$1,500,000
