

Federal Capabilities Statement

We design smart building technology solutions that keep people safe and connected, and boost building performance.

CRUX Solutions is a trusted small business delivering expert network infrastructure, audio/visual, security, lighting systems design, and acoustic consulting to government agencies across the United States. Headquartered in Texas with offices in Oklahoma, our multidisciplinary team brings decades of experience in designing and consulting on technology systems that power secure, efficient, and future-ready facilities.

We partner closely with government agencies across the country—bringing deep technical expertise, a collaborative mindset, and a commitment to doing things right the first time. Our clients count on us to listen first, design thoughtfully, and deliver on time every time.

Services //

 Technology Cost Estimating	 Network Infrastructure	 Project Management
 Specialty Healthcare Systems	 Security	 Construction Administration
 Acoustic Consulting	 Audio/Visual	 IT & Security Assessments
 Intelligent Lighting	 Radio Frequency	 IT Equipment Planning

Why Clients Choose CRUX

- » **Consulting.** CRUX Solutions specializes in consulting with building owners, architects, engineers, and program managers to design smart, flexible, efficient, and future-ready buildings.
- » **Experience.** We hold extensive experience in partnering with clients on local, state, and federal projects. We are adept in navigating the budgetary concerns, regulatory requirements, and expectations that define these varying project types.
- » **Research.** We actively research and evaluate the newest technologies so we can offer clients the very best options available. Being product agnostic, we have the flexibility to recommend the most appropriate solutions and equipment for each project.
- » **Design.** Full-service design, project management, and training services mean that we partner with clients to design the best possible solution, then ensure it is implemented correctly and operators understand how to utilize it to its maximum potential.
- » **Service.** CRUX is known for responsive, personalized service and some of the highest satisfaction ratings in the industry. We go beyond the design—delivering training, documentation, and long-term support to ensure mission success.
